GENERAL INFORMATION
KG316T-II widely used in the production equipment, street lamp, light box, neon light, warehouse ventilation, agricultural cultivation, automatic preheating, radio and television, etc., is the ideal control product.

GENERAL INFORMATION
This Digital Timer is accurate to the minute, designed with 15-combination of Daily-Programs which can lead great convenience to users upon choosing the required days in a week for operation the timer.

BASIC FEATURES:
Panel mounted
Advanced pre-setting one week before
Digital electronic timer switch with daily & weekly programs
Repeat programs with 18 on/off setting and manual override
Lithium battery power reserve when electric supply cut off

TECHNICAL DATA:
Standard working power supply: 220V/50Hz
Voltage range: 176~250V
Switch resistance load capacity: 25A
Inductive load: 20A
Consumption Power: < 3 VA
Timer range: 1 min-168 hours
Regular timer: 18 times ON/OFF (day/weeks)
Time error: <1s/day (25°C)
Environment temperature: -25~60°C
Relative humidity: <95%
Dimension: 99*56*42mm
Weight: 130g
Have Hibernation feature
Battery life: 5 years (Lithium battery)

PROGRAMMING THE TIMER

Keyboard lock usage
Press ‘C’ key can reset the product.
Press the ‘C/R’ key 3 seconds to sleep/wake up the screen.
The keyboard will not automatically lock, press ‘SET’ key 3 seconds to lock/unlock the keyboard.

A. Functional description to buttons on panel
